No building shall be erected, altered, placed or permitted to remain on any building site other than dwellings not to exceed two stories in height, a private garage or garages and other outbuildings incidental to the residential use of the premises.

(b) No building shall be erected, placed or altered on any building site until the construction plans and specifications and a plot plan showing the location of the structure have been approved in writing by the Architectural Control Committee (or by a representative designated by a majority of the members of said committee) as to quality of workmanship and materials, harmony of external design with existing structures and as to location with respect to topography and finished grade elevation and building lines. No residential building shall be erected, placed or permitted to be used on any building site without the prior written approval of the Architectural Control Committee or its representative designated as aforesaid, and the discretion of said committee in withholding or granting said approval shall be absolute. Neither the members of said Committee nor its designated representative shall be entitled to any compensation for services performed pursuant to this

covenant. The powers and duties of such Committee and of its designated representative shall cease on January 1, 2010, and thereafter the approval described in this covenant shall not be required unless prior to said date and effective thereon, a written instrument shall have been executed by the then record owners of a majority in area of the land within the boundaries of said lots and shall have been duly recorded in the Office of the Recorder of Deeds of said County appointing a representative or representatives who shall thereafter, for the time specified in said agreement, exercise the same powers exercised by said Committee.

(f) Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat.

(g) No satellite dish, television satellite reception disk or similar device shall be maintained or used upon any building site.

No tree shall be permitted to remain within such triangular area unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines at said elevations.

(o) No private driveway shall be regularly used or maintained on any of said land or within any street right-of-way unless the same is constructed and improved with a concrete surface over its entire length and width from the edge of the street pavement within the public street to the point of termination of such driveway.
